# Tax Incremental District No. 4 Creation Project Plan

## City of Franklin Officials

### City Council

Thomas M. Taylor	Mayor
Ken Skowronski	Alderman
Alan Hammelman	Alderman
Peter Kosovich	Alderman
Steve Olson	Alderman
Lyle Sohns	Alderman
Tim Solomon	Alderman

### City Staff

Gary R. Petre	Director of Administration
Sandra Wesolowski	City Clerk
Calvin A. Patterson	Finance Director/Treasurer
Jesse A. Wesolowski	City Attorney

### Community Development Authority

Mayor Thomas M. Taylor	Chairman
Ted Grintjes	Vice-Chair
Alderman Lyle Sohns	Member
Dave Brown	Member
Judy Roberts	Member
Rob Spitzer	Member
Greg Stan	Member

### Joint Review Board

Randy Ritter	City Representative
Robert Dennik	Milwaukee County
Renee Dudley	Milwaukee Area Technical College
Sara Larsen	Oak Creek School District
Randy Gorman	Public Member

**STATEMENT OF KIND, NUMBER AND LOCATION OF PROPOSED PUBLIC WORKS**

Tax Incremental District No. 4 (the "District") is being created by the City of Franklin under the authority provided by Wisconsin Statute Section 66.1105. The District is created as a "Mixed Use District" based upon a finding that at least 50%, by area, of the real property within the District is suitable for a combination of commercial and residential uses within the meaning of Wisconsin Statute Section 66.1105(2)(cm). Lands proposed for newly platted residential development comprise 32.8% of the area of the District. To the extent that project costs will be incurred by the City for newly platted residential development, the residential development will be located in a conservation subdivision as defined in s.66.1027(1)(a) Wisconsin Statutes.

The District is located in an area generally bounded by Fitzsimmons Street on the north, 27<sup>th</sup> Street on the east, South County Line Road on the south, and an irregular boundary on the west. The City of Franklin intends that tax increment financing (TIF) will be used to assure that a combination of private commercial and residential development occurs within the District consistent with the City's development objectives. This will be accomplished by installing public improvements, and making necessary related expenditures, to promote development within the District. The goal is to increase the tax base and to provide for and preserve employment opportunities within the City.

The following is a list of public works projects that the City expects to implement in conjunction with this District. Any costs directly or indirectly related to the public works are considered "project costs" and eligible to be paid with tax increment revenues of the District.

- **STREETS.** The City will need to construct and/or reconstruct certain streets to provide access, or to improve access, to properties within the redevelopment area. This construction or reconstruction may include a need to install traffic signals and to construct or reconstruct median areas.
- **RIGHT-OF-WAY ACQUISITION.** The City may need to acquire property for street and utility right-of-way, and for installation of stormwater management practices, to include the costs of acquisition, relocation and demolition.
- **SEWER COLLECTION SYSTEM.** Redevelopment of the area will require extensions and/or upgrade of existing sewer mains and installation of a sanitary sewer lift station.
- **WATER SYSTEM IMPROVEMENTS.** Redevelopment of the area will require extensions and/or upgrade of existing water mains.
- **STORM SEWER SYSTEM.** Redevelopment of the area will require installation or extensions of storm water mains.
- **STORMWATER MANAGEMENT.** Redevelopment of the area will require that the City construct retention/detention ponds or other stormwater management facilities to manage stormwater runoff from the development area.
- **LANDSCAPING.** The City intends to provide landscaping within public rights-of-way, such as street trees, lighting and other facilities to attract high quality development to the area.
- **ADMINISTRATIVE COSTS.** These include but are not limited to a portion of the salaries of administrative staff, public works employees and others involved with the projects throughout the project plan implementation. Audit expenses and any expenses associated with dissolving the district are also considered eligible costs.

**STEP 1. Calculation of Maximum Equalized Property Value Allowed within Tax Incremental Districts in the City of Franklin**

Equalized Value (as of January 1, 2004)		Maximum Allowable TID Property Value
\$2,681,945,500	X 12% =	\$321,833,460

**STEP 2. Calculation of Equalized Property Value Currently Located and Proposed to be Located within Tax Incremental Districts**

Tax Incremental Districts	Equalized Value
TID No. 2 Increment	\$115,597,000
Total Existing Increment	\$115,597,000
Proposed Base of New District	\$ 14,470,200
<b>Total Existing Increment Plus Proposed Base</b>	<b>\$130,067,200</b>

The equalized value of the increment of existing Tax Incremental Districts within the City, plus the base value of the proposed District, totals \$130,067,200. This value is less than the maximum of \$321,833,460 in equalized value that is permitted for the City of Franklin. The City is therefore in compliance with the statutory equalized valuation test and may proceed with creation of this District.

Concurrent with the creation of TID Number 4, the City is considering creation of TID Number 3. The proposed base of TID Number 4 is \$32,310,820. Even with the concurrent creation of another District, the City will still be well under the statutory equalized valuation test.

**3**

**ECONOMIC FEASIBILITY STUDY**

The City of Franklin, located in the south-central part of Milwaukee County is a community of approximately 31,804 in population. The City benefits from proximity to the City of Milwaukee as an economic center, as well as convenient access to major ground and air transportation routes and facilities. Growth in the City has been significant and sustained, characterized by rapidly escalating land values and high demand for readily developable land with necessary infrastructure improvements.

The charts and exhibits on the following pages demonstrate that the City will be able to obtain the funds necessary to implement the projects in this Plan and that the revenue from the District will be sufficient to pay for them. Charts I and II on p. 5 project, respectively, the City's equalized value, and the full faith and credit borrowing capacity of the City. Equalized valuation projections were made using two methods. The first projects the future valuation of the City using the average annual percentage of valuation growth experienced between 2000 and 2004. The second method projects the future valuation based upon the average annual increment between 2000 and 2004. This method is identified as the straight-line method. Chart II projects the general obligation borrowing capacity of the City utilizing the straight-line valuation projection and considering the existing debt of the City. The chart demonstrates that the City is likely to have a general obligation capacity in the range of \$109,297,275 to \$271,668,535 during the project implementation period.

<sup>1</sup> GO Debt remaining per schedule provided by City Finance Director on 1/17/05

**PROJECTED REVENUE**

The Exhibits found on pages 7 and 8 project the development that is expected to occur within the District, and the associated estimate of TIF revenues that will be available to retire the debt incurred to finance project costs. The increment projections are based on the following assumptions:

- The base value of the District is \$14,470,200.
- New development with a value of \$180,547,023 will be established within the District between the years 2006 and 2024 per the build out schedule on page 10.
- The equalized tax rate in 2005 is projected to be \$22.78 per thousand. It is projected to remain constant throughout the proforma.
- Valuations are projected to increase 1% each year reflecting ordinary inflation of property values within the District.

**CASH FLOW**

The proforma on p.10 summarizes the District's cash position throughout its potential life. It shows revenues, expenses and balances by year. Revenues include tax increments, capitalized interest and interest earned investing year-end balances.

Expenditures represent payments for contract agreements with developers, and principal and interest payments on this District's share of debt issued to finance projects listed in the Plan. The tentative proposed issues are identified as follows:

<b>Issue No.</b>	<b>Year</b>	<b>Description</b>	<b>Amount</b>
1	2005	General Obligation Community Development Bonds	\$4,790,000
2	2008	General Obligation Community Development Bonds	\$6,060,000
3	2012	General Obligation Community Development Bonds	\$12,980,000

Revenues anticipated will be sufficient to meet all obligations in a timely manner and produce a \$3,070,452 accumulated surplus by the year 2023.

**DETAILED LIST OF PROJECT COSTS**

This Plan is not meant to be a budget nor an appropriation of funds for specific projects, but a framework with which to manage projects. All costs included in the Plan are estimates based on best information available. The City retains the right to delete projects or change the scope and/or timing of projects implemented as they are individually authorized by the City Council, without amending the Plan.

All costs are based on 2005 prices and are preliminary estimates. The City reserves the right to increase these costs to reflect inflationary increases and other uncontrollable circumstances between 2005 and the time of construction. However, for increases in excess of 15% of total project costs, the City would pursue an amendment to the Plan in accordance with the amended procedures specified in Section 66.1105(4)(h) of the Wisconsin Statutes, which include review by the Joint Review Board. The City also reserves the right to increase certain project costs to the extent others are reduced or not implemented, without amending the Plan. The tax increment allocation is preliminary and is subject to adjustment based upon the implementation of the Plan.

A detailed listing of project costs is found on 12.

City of Franklin

Proposed Tax Increment District No. 4 ("Area D")

Project Costs<sup>1</sup>

PROJECT LIST	PHASE I	PHASE II	PHASE III

**5**

**A DESCRIPTION OF THE METHODS OF FINANCING AND THE TIME WHEN SUCH COSTS OR MONETARY OBLIGATIONS RELATED THERETO ARE TO BE INCURRED**

**PLAN IMPLEMENTATION**

Projects identified will provide the anticipated governmental services to the area. A reasonable and orderly sequence is outlined on the following page. However, public debt and expenditures should be made at the pace private development occurs to assure increment is sufficient to cover expenses.

It is anticipated developer agreements between the City and property owners will be in place prior to major public expenditures. These agreements can provide for development guarantees or a payment in lieu of development. To further assure contract enforcement these agreements might include levying of special assessments against benefited properties.

The order in which public improvements are made should be adjusted in accordance with development and execution of developer agreements. The City reserves the right to alter the implementation of this Plan to accomplish this objective.

Interest rates projected are based on current market conditions. Municipal interest rates are subject to constantly changing market conditions. In addition, other factors such as the loss of tax-exempt status of municipal bonds or broadening the purpose of future tax-exempt bonds would affect market conditions. Actual interest expense will be determined once the methods of financing have been approved and securities issued.

This Project Plan provides one example of how the City could provide the financing required to undertake the projects it intend to complete within the District. The City reserves the right to use any of the alternate financing solutions described in Section 3 above for the projects as they are implemented, without amending the Plan.

Issue No. 1  
General Obligation Community Development Bonds (2005)  
\$4,790,000

Proposed Maturity Schedule

The Phase I projects are anticipated to be financed with General Obligation Community Development Bonds to be issued under authority of Wisconsin Statutes Chapter 67. The following is the proposed schedule for repayment of project costs using estimated interest rates.

YEAR	PRINCIPAL	INTEREST	TOTAL
2005		50,082	50,082
2006		200,330	200,330

MAP SHOWING PROPOSED PROJECTS AND IMPROVEMENTS

AREA "D" PHASE 1  
STREETS AND UTILITIES

- Street improvement including sanitary sewer and water
- Water main extension
- Sanitary sewer extension

**10**

**ESTIMATE OF PROPERTY TO BE DEVOTED TO RETAIL BUSINESS**

Pursuant to Section 66.1105(5)(b) of the Wisconsin State Statutes the City estimates that that no more than 55% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

**11**

**ANNEXED PROPERTY**

There are no lands proposed for inclusion within the District that were annexed by the City on or after January 1, 2004.

**12**

**A LIST OF ESTIMATED NON-PROJECT COSTS**

Anticipated construction by private parties: \$183,000,000

**13**

**PROPOSED CHANGES IN ZONING ORDINANCES**

The City does not anticipate the need for any changes to its zoning ordinances in conjunction with this Plan.

**14**

**PROPOSED CHANGES IN MASTER PLAN, MAP, BUILDING CODES AND CITY ORDINANCES**

It is expected that this Plan will be complementary to the City's Master Plan. There are no proposed changes to the building codes, the map or other City ordinances for the implementation of this Plan.

## **15** RELOCATION

It is not anticipated there will be a need to relocate any persons or businesses in conjunction with this Plan. In the event relocation becomes necessary at some time during the implementation period, the City will take the following steps and actions.

Before negotiations begin for the acquisition of property or easements, all property owners will be provided an informational pamphlet prepared by the Wisconsin Department of Commerce and if any person is to be displaced as a result of the acquisition, they will be given a pamphlet on "Relocation Rights". The City will provide each owner a full narrative appraisal, a map showing the owners of all property affected by the proposed project and a list of all or at least ten neighboring landowners to whom offers are being made.

The City will file a relocation plan with the Department of Commerce and will not proceed with displacement of persons or business concerns until the plan is approved in writing by the Department of Commerce as required by Wisconsin Statutes Section 32.25. The City will also keep records as required in Wisconsin Statutes Section 32.27.

## **16** ORDERLY DEVELOPMENT OF THE CITY OF FRANKLIN

TID No. 4 contributes to the orderly development of the City by providing the opportunity for continued growth in tax base and job opportunities.

Re: Project Plan for Tax Incremental District No. 4 of the City of Franklin, Wisconsin

Ladies and Gentlemen:

We have acted as counsel to the City of Franklin, Wisconsin (the "City") in connection with the proposed creation of Tax Incremental District No. 4 of the City (the "District") and the preparation of the project plan for the District (the "Project Plan").

In this connection, we have reviewed the Project Plan, the law and such other documents as we deem necessary to enable us to give this opinion. We have relied on the statements of fact set forth in the Project Plan and the documents attached as exhibits to the Project Plan, without independent verification. We have not been engaged or undertaken to verify the reasonableness or accuracy of the assumptions, estimates or financial projections contained in the Project Plan, and express no opinion relating thereto.

Based on our review, it is our opinion that the Project Plan is complete and complies with Section 66.1105(4)(f) of the Wisconsin Statutes.
