**IEBC s. 705.2 ALTERATIONS TO A PRIMARY FUNCTION AREA**  
**IEBC 1105.1 An addition that affects the accessibility to, or contains an area of, primary function shall comply with the requirements of Sections 705, 806, and 906, as applicable.**

<b>A. Total Cost of Alteration to Primary Function Area.</b> (Excluding costs in B.)	\$ _____
<b>Minimum Required Expense to Provide Accessible Route:</b> (Enter 20 percent of the total cost of the alteration from the line above)	\$ _____

<b>B. Costs Required to Provide an Accessible Route:</b> (Listed in order of suggested priority in the event the cost is disproportionate)	
1. Costs associated with providing an accessible route to the altered area: (Route is from exterior to the altered area, including entrance and parking):	
Costs associated with providing an accessible entrance:	\$ _____
Costs associated with providing components of an accessible route (ramps, elevators, platform lifts):	\$ _____
Costs associated with providing accessible elements such as parking:	\$ _____
Cost to provide accessible route:	\$ _____
2. Costs associated with making toilet rooms accessible:	\$ _____
3. Costs associated with relocating an inaccessible drinking fountain:	\$ _____
<b>Total Costs to Provide an Accessible Route:</b>	\$ _____

<b>C. Disproportionate Costs:</b> List the accessible elements (or portions of elements) from Section B that will be provided in the project. This list should demonstrate that 20% (or more) of project costs are being utilized to improve accessibility. If providing one accessible element exceeds 20% and all other elements in section B have been provided, the additional cost of this element is not required for the project (cost of accessible features up to 20% are required – for example 32” clear door width to a bathroom when the remainder of the bathroom is not accessible). Provide a description on a separate page if additional space is required.	_____ _____ _____ _____ _____
