REPORT TO THE PLAN COMMISSION

Meeting of April 7, 2016

Rezoning

RECOMMENDATION: City Development Staff recommends approval of the Rezoning Application, subject to the conditions as noted in the attached draft ordinance.

- Project Name: Rezoning of Milwaukee County owned parks
Project Address: Multiple properties (see table within report)
Applicant: Milwaukee County
Owners (property): Milwaukee County
Current Zoning: See table below
Proposed Zoning: See table below
Applicant Action Requested: Recommendation of approval of the Rezoning Application

Introduction and Project Description:

On February 23, 2016, the applicant submitted a Rezoning Application to rezone 19 separate parcels, representing 8 different county parks consisting of: Franklin Park, Froemming Park, Grobschmidt Park, the Milwaukee County Sports Complex, Southwood Glen Park, Oakwood Golf Course, St. Martins (Robin Wood) Park, and Whitnall Park. These parcels are generally zoned residential or agricultural, but have long been part of these county parks. The applicant indicates that the uses within each of these parcels will remain unchanged. Note that any current FW Floodway District and/or FC Floodplain Conservancy District will retain the same zoning boundaries along with the P-1 Park District zoning.

Below is a table listing the properties to be rezoned (taxkey and address), property owner, current and proposed zoning and the approximate acreage.

Table with 6 columns: Taxkey Number, Address, Property Owner, Current Zoning, Proposed Zoning, Approximate Acreage. It lists four properties with their respective zoning details and acreage.

Staff suggests that the applicant provide natural resource information per Section 15-9.0203G. of the Unified Development Ordinance and be required to place protected natural resource features within conservation easements. In lieu of completing a Natural Resource Protection Plan, staff suggests that entire properties may be placed within conservation easements utilizing best available natural resource information, such as WDNR and SEWRPC mapping. Staff is only suggesting submittal of a Natural Resource Protection Plan at this time as no development is

currently proposed. The applicant has been made aware that this will be a requirement upon any future development of these properties.

Consistency with the Comprehensive Master Plan

The proposed applications are consistent with the City of Franklin Comprehensive Master Plan. It can be noted that the Plan's Future Land Use Map identifies the subject area's future land use as a combination of one or all of the following uses: Recreational, Areas of Natural Resource Features or Water. One property, bearing Taxkey No. 796-9997-002 (0.68 acres), includes a small area designated as Residential. The property, however, is primarily designated as Areas of Natural Resource Features.

Staff Recommendation:

City Development Staff recommends approval of the Rezoning Application, subject to the conditions as noted in the attached draft ordinance.

Subject: Milwaukee County Rezoning Application

Project Summary:

Milwaukee County is undergoing a review of the municipal zoning applied to all County owned Parks. During this review it has been discovered that zoning for a few parcels is inconsistent with their use as a park. This request is to change the zoning on the included list of parcels from their current zoning district to a Parks District. It should be noted that a few parcels also have FW Floodway District zoning. It is our intent that the FW Floodway District portions of the parcels remain FW, but that the balance become P-1 Parks. All uses of the proposed parcels will remain unchanged from their current use as parks.
