

Community Open House 68th Street

We need YOUR ideas and feedback! Please join us to make sure that 68th Street is a safe corridor for all who travel it.

Tuesday, September 25, 2018 4:00 - 7:00 pm

Root River Center
Conference Room
7220 W Rawson Avenue
Franklin, WI 53132

How do you use 68th Street?

As residents who live near the corridor, we want to hear from you about how you use 68th Street. Bike to the trailhead? Walk the kids to Christine Rathke Park? Your feedback is critical as the city looks towards the future and considers the best way to improve safety and mobility along the corridor.

This will be the first open house for the 68th Street project. At the open house, you will have an opportunity to view aerial photos of the corridor and tag an area where you feel there may be a pedestrian safety issue, note a hill that limits visibility, or identify any other noteworthy activity or problem along the corridor.

We will also have a “sticky wall” where you can post general comments about the corridor. A comment box and comment sheets will also be provided at the open house.

Questions? Contact Glen Morrow, City Engineer at:
City of Franklin Engineering Department
9229 W. Loomis Road
Franklin, WI 53132
414-425-7510

If you are unable to attend, please use the comment form on the back of this invitation and return to Glen Morrow at the address above.
