TO WHOM IT MAY CONCERN:

The City of Franklin has received an opinion from the Society of Southeastern Wisconsin Land Surveyors Inc- Milwaukee Metro Chapter regarding the City's practice of locating boundary corners for residents. The City does not have a licensed Land Surveyor on Staff and it is the Society's position that this policy constitutes practicing Land Surveying under State Statute 443.01 (4).

After discussion with City Legal Staff, the Engineering Department will no longer be providing this service. This policy change is effective immediately.

If you need your property corner marked, or other related services performed, please contact a Land Surveyor licensed by the state of Wisconsin. If you need assistance in locating a licensed land surveyor, a great resource is the Wisconsin Society of Land Surveyors website (see link and information below).

Sincerely,

Glen E. Morrow, PE
City Engineer / Director of Public Works

For locating lot corners in Franklin, check boxes for

- "Lot Survey" survey type and
- "Milwaukee" County.

Licensed land surveyors available to assist you are listed.

The City of Franklin does not endorse nor promote any one land surveyor.

We suggest you check references and make an informed decision.
