June 7, 2016

Citizens of Franklin, Honorable Mayor and Common Council members:

Introduction

The Comprehensive Annual Financial Report of the City of Franklin, Wisconsin for the fiscal year ended December 31, 2015, is hereby submitted. State law requires that all local governments with a population over 25,000 publish a complete set of financial statements that are presented in conformity with general accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Franklin (City). Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh the benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included in this report.

The City's financial statements have been audited by CliftonLarsonAllen LLP, a firm of certified public accountants experienced in auditing governmental entities. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended December 31, 2015, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unqualified opinion that the City's financial statements for the fiscal year ended December 31, 2015, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

City Profile

The City of Franklin, incorporated in 1956, is located in the southwestern corner of Milwaukee County. The City is 34.5 square miles in size and has a population of 35,655. Over the last ten years the City has experienced an average annual population increase of 1.0 % per year. The city is a residential community (73.9%) with a commercial and industrial base (25.4 %). Approximately 35% of the acreage in the City is undeveloped, which demands attention to growth issues. It is considered to be one of the more desirable communities in the Milwaukee metropolitan area in which to live and work. The City provides a typical range of municipal services for a suburban community including police, fire protection, emergency medical/paramedic, maintenance of streets and other infrastructure, library, public health services, recreational activities, building inspection, zoning control, refuse collection, recycling collection, sanitary sewer, storm sewer and water services, both construction and maintenance. The City is authorized to levy property tax on real and personal property located within its boundaries to support the services provided.

The City operates under the mayor/council form of government. Policy making and legislative authority are vested in a governing council consisting of a mayor and six council members. The governing council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees and hiring a city attorney. The City's Mayor is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the government and for appointing the heads of the various departments. The Council is elected, by district, on a non-partisan basis. The Mayor and Council members serve staggered three-year terms. The City is organized into departments, headed by ten officials appointed by the Mayor or Director of Administration and confirmed by the Common Council. Numerous boards, commissions and committees allow for citizen involvement in government by providing a forum for policy input to the Council and guidance to the departments. Library service is provided through a separate Library Board that functions like a department of the City and engages the Library Director. Water service is provided through a separate Water Utility that functions like a department of the City. These two areas therefore have been included as an integral part of the City's financial statements. The City also is financially accountable for a legally separate Community Development Authority (Authority). The Authority's activities are reported within the City's financial statements. Additional information on the Authority can be found in Note 1 in the notes to the financial statements.

The budgetary process serves as the foundation of the City's financial planning and control system. The objective of the budgetary process is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Common Council. The preparation of a forecast for the existing programs for the following year is prepared during July and August. Departmental requests for personnel changes and new capital outlay expenditures are made by the middle of August. The Mayor then reviews the forecast including recommended personnel and capital outlay expenditures and determines by mid August the personnel and capital outlay expenditures that will be included in the initial departmental requested budgets. The departments take this information and submit their requested budgets by the end of August. The budgets are reviewed and the Mayor submits his recommended budget by the middle of September. The Council reviews the recommended budget and agrees on a proposed budget by mid October. The Council is required to hold a public hearing on the proposed budget in early November, and then adopts a final budget in mid November. The adopted budget is prepared by fund, function (e.g. Public Safety), and department (e.g. Police). Transfers of appropriations between funds, functions or department require the approval of the governing council. Budget-to-

actual comparisons are provided in this report for each governmental fund with an adopted budget. The General Fund comparison is presented in Exhibit F as part of the basic financial statements for the governmental funds and in Schedules 3 & 4 of the supplementary information. For governmental funds other than the General Fund with adopted budgets, this comparison is presented in the supplementary information section of this report.

The information presented in the financial statements is perhaps best understood when considered from the broader perspective of the environment that the City operates.

Economic Condition and Outlook

The economic activity in Franklin in both the residential and the non-residential sectors was stable. New construction was lower in 2015 compared to 2014 as evidenced by reduced construction permit revenues. Prospects in 2016 for residential, commercial and industrial development are anticipated to be on a par to 2015, with growth dependent upon the development of new subdivisions and business parks.

Estimated actual property values have grown at an average annual rate of 1.9% since 2006. The new growth net of TIF Districts was \$33.7 million in 2015, \$46.8 million in 2014, and \$34.6 million in 2013. The growth in 2016 is expected to be in the \$20 to \$30 million dollar range reflecting the level of economic activity. The historical growth has allowed the City to maintain a relatively low municipal tax rate while still funding the increased cost of services required as a result of the City's growth.

Residential Growth

Over the past ten years, residential valuation has grown at an average annual rate of 1.6 %. Lingering effects of the economic slowdown will keep growth from new construction in 2016 at about the same level as 2015. Longer range, the City has the most developable land in the County and remains attractive to builders and potential residents.

Commercial and Industrial Growth

Over the past ten years, commercial and industrial valuation has increased at an average annual rate of 2.8 %.

In 2005, two TIF Districts (#3 & #4) were established on the eastern side of the City. The two districts have equalized value tax increments of \$73 and \$55 million, respectively.

Anticipated residential growth will continue to place demands on the commercial sector for goods and services that, in turn, is expected to continue the trend of commercial growth. Expansion of the commercial and industrial tax base is a goal of the City with respect to the overall tax rate. Currently 73.9 % of the City's property value is residential compared to 76.7 % ten years ago. Future tax relief will need to come from industrial and commercial tax base expansion.

Organizational and Service Growth

2015 was a year where overall revenue rose 0.8% compared to budget and 1.8% compared to last year. A temporary increase in computer equipment located in the City drove state exempt computer aids up \$244,000 in 2015.

2015 was not a City-wide property reassessment year. The last reassessment was done in 2010. A re-valuation was completed in 2013. Performing revaluations on a regular basis is in line with the Common Council policy to schedule a revaluation every three years to keep property values in line with current market values. The State determined that the local

assessments after reassessments were 92.7% of fair value. The estimated actual value of City properties was approximately \$3.6 billion.

The challenge for the operating departments in 2015 was to continue to maintain service levels at a time of flat revenues and growth of 0.94% in new properties.

Internal Controls

The City's internal control structure is subject to ongoing evaluation by management. The City is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with laws, regulations and good financial policies. The results of the City's audit for the fiscal year ended December 31, 2015 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws or regulations. As a recipient of federal and state financial assistance, if the level of grant expenditures exceeds an established level, currently \$ 750,000, a single audit of grants is required. The City was not required to have a single audit of grants for 2015.

Financial Planning

Long range financial planning is in place, especially for the capital funds and debt service funds, to ensure that resources are in place to meet committed projects and ensure that there is adequate funding for projects prior to their approval and that adequate funding is in place for debt that has been or will be incurred, with an appropriate plan for repayment.

Financial Policies

The City maintains policies on fund balance level, debt policy, investment policies, budget forecasting policy and a capitalization policy. These policies, together with conservative management, have served the City well. The existence of a fund balance enabled the fund balance to be utilized in 2009 during the revenue decline and replenished in 2010 and 2011 when revenue stabilized. The City tapped the debt markets in 2014, for the first time since 2008, to finance two major capital projects. Debt Service planning has permitted a steadily declining Debt Service levy since 2008.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2014. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. This was the 23rd consecutive year that the City has received this award.

In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized CAFR whose contents conform to program standards. Such report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements. We will be submitting the CAFR to the GFOA to determine its eligibility for a 2015 Certificate.

Acknowledgments

Preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the Finance Department staff. Appreciation is also

Mayor, Common Council and Citizens
June 7, 2016

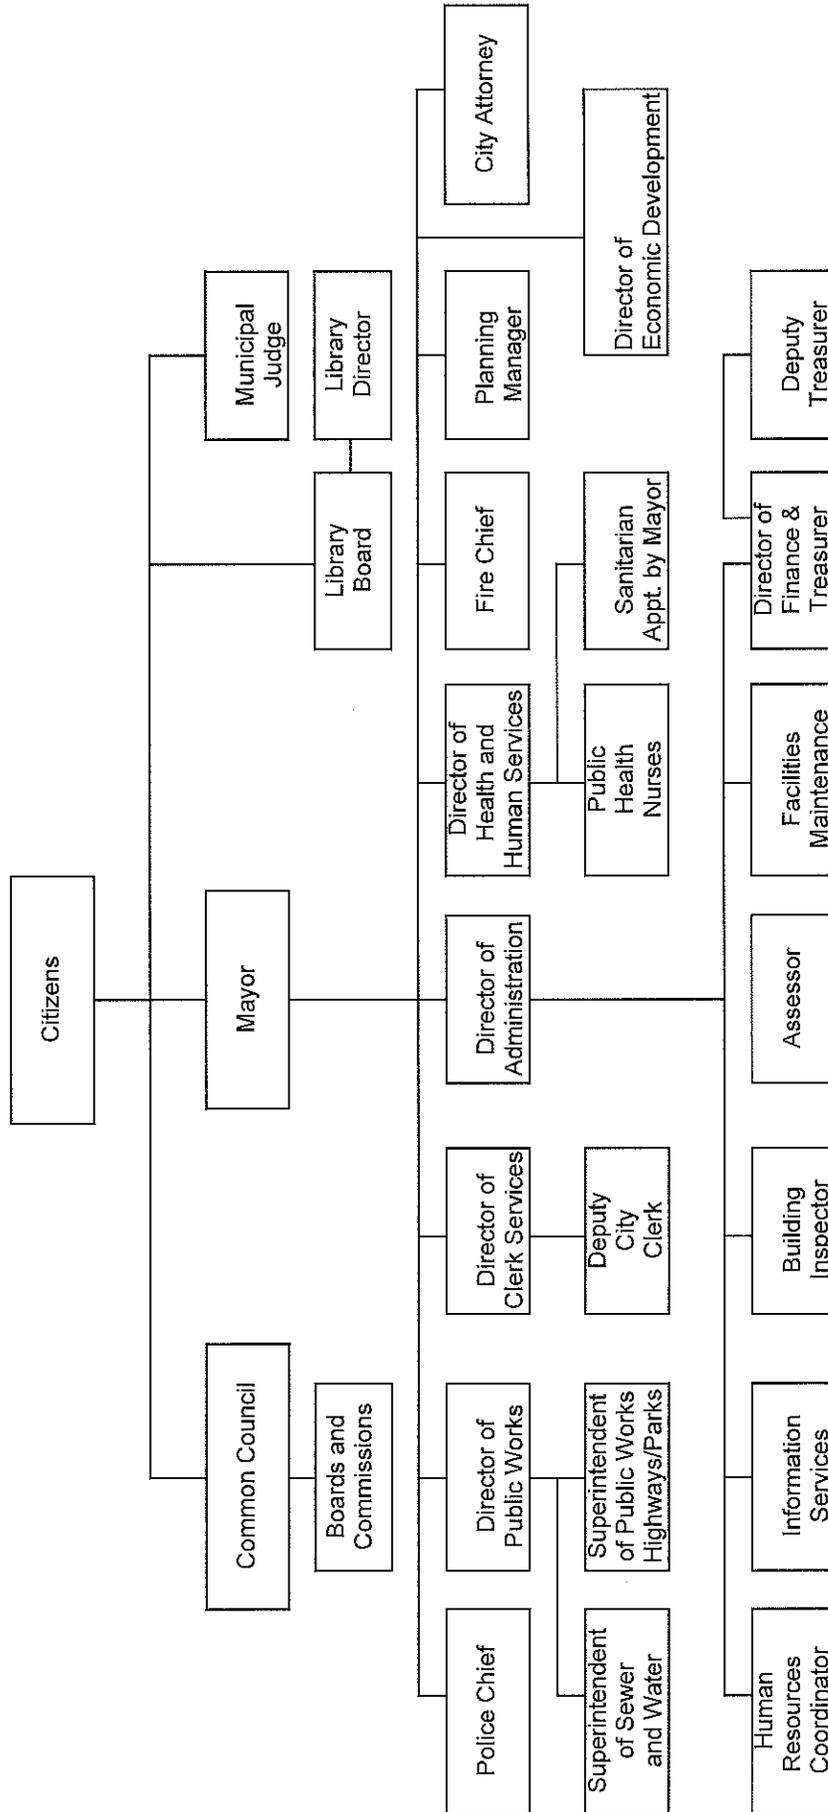

extended to all other City employees who contributed to its preparation. We also thank the Mayor, Common Council, and Finance Committee for their interest and support in planning and conducting the financial operations of the City in a responsible manner.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Paul Rotzenberg".
